

Glasses and Frame Dispensing

Finding the perfect pair of glasses is not easy. Not only do you need to see clearly and comfortably, but your frames need to be comfortable and look good. This is where experience in optical dispensing counts.

Frame Selection

It is important to find a frame that provides even contact with your nose, is positioned optimally from your eyes and rests comfortably behind your ears. Let us help you find your perfect fit!

Lens Selection

We use premium Australian designed and manufactured lenses for our glasses. Our lenses not only ensure clear sight but also maximise visual efficiency and reduce eye strain.

Combining the Two

The challenge is in finding the combination and making sure that your prescription lenses match your frame. This is what makes a pair of glasses a favourite.
