

Therapeutic Eye Disease Management

At Eyecare Eyewear, your long-term eye health is our priority. Our experienced optometrist team is equipped with the qualifications and expertise to provide a full scope of therapeutic eye disease management. This means we can diagnose, treat, and monitor a wide range of eye conditions right here in our practice, often without the need for immediate referral.

Conditions We Manage:

- **Dry Eye Syndrome:** Comprehensive assessment and tailored treatment.
- **Conjunctivitis:** Diagnosis and treatment for various types of "pink eye."
- **Allergic Eye Conditions:** Managing itchy, watery, red eyes.
- **Blepharitis:** Effective strategies and prescriptions for eyelid inflammation.
- **Corneal Abrasions & Infections:** Treating injuries and preventing infection.
- **Styes & Chalazia:** Management of eyelid lumps.
- **Glaucoma:** Early detection, monitoring, and initial medication management.
- **Post-Operative Care:** Monitoring healing and managing related conditions after surgery.
- **Foreign Body Removal:** Safely removing objects from your eye.

Our approach includes detailed exams, personalized treatment plans, clear medication instructions, and ongoing monitoring. We aim to manage your eye health effectively, often eliminating the need for specialist referrals.

Don't let eye discomfort affect your life. Trust our team for your therapeutic eye disease management.
